

Interesting place in Hong Kong

Mai Po Marshes is the most interesting place in Hong Kong because the birds are so beautiful. I think morning is a good time to watch the birds. The Mai Po Marshes is near yuen long. You can watch the birds. They are so lovely and cute. I like the birds because their body has many colour like blue, yellow, red, pink etc. You can take a train to yuen long. The train is very slow. When you go to the Mai Po Marshes, you will feel happy and excited. I like the Mai Po Marshes very much.
