

## My mother

I like her very much. She has short straight hair. She is quite tall and not too fat. She has big eyes, thin eyebrows and a mole on her nose. Do you know who she is? She is my mother.

My mother is very strict with me and my sister. She wants us to do the best in test and examination. Once, I only got eighty marks in my Chinese test. She did not give me pocket money. Although she is very strict, she is patient. She teaches me to do homework every day. If I do not understand, she will teach me over and over again.

My mother is a cook (specialize in making dessert). She always makes new dessert. The dessert is very delicious. Every day we eat a lot of dessert.

She is a perfect mother. It is so good that I can be her daughter. I think your mother also thinks that it is so good to have you to be her daughter! You have an attractive start.
