Dear Parents/Guardians,

"Morning Reading Before Class"

Our school aims to cultivate students' interest in reading, improve their language skills, establish good study habits, develop excellent academic skills, and lay an important foundation for lifelong learning. This year, we specially implemented "Morning Reading before Class" every day. The activity has been carried out for two weeks and has achieved good results.

Reading ability is very important for all learners. Good reading ability help students learn efficiently. Therefore, please parents pay attention to your children's participation in reading activities. "Morning reading before class" is held every day from 8:15 to 8:30 am. Students must prepare their books. Students can also borrow books from the library or classroom library in advance. Both Chinese and English books are accepted, and the content must be educational. Parents, please help your children go out early and encourage them to read. If you have any enquiries, please contact Ms. Chiu, the teacher of the school library.

Mr. Yung Chi Ming (Supervisor)  
Ms Kwok Yuen Ki (Principal)

"Morning Reading Before Class"

Circular NO. 44E/23  
(For the whole school)

I am aware of the matter of "Early Reading before class" and will actively cooperate to encourage children to read carefully.
